

**Webinar TODAY:** <http://www.riversidecares.co.uk/questions/>

Post your questions and our expert team will be answering them live all day March 8th 2017. Like to share a tip - please feel free, this is very much a community, sharing and caring session that proved to be hugely popular in 2016. This time we have expanded it to include HR, early years and childcare questions.

The team covers multiple disciplines from nutrition experts, to an early years lecturer, the Riverside Cares staff team and an HR expert.

**Like to know about more of Riverside Cares events?** As well as all of our classic childcare training sessions (ranging from paediatric first aid, safeguarding, professional qualifications) we always add in a series of parenting and childcare know how events.

- On April 20th we will have an [urban farm based event at Stepney Farm](#) in the heart of East London, and in the summer we will once again be at JW3 in Swiss Cottage for the annual [Parent and Baby Fest](#), an all-day event with sessions and fun activities.

At the heart of what Riverside Cares does are our childcare provider services. We supply in both early years settings and in family homes professional childcarers, both temporary and permanent staff, at short notice (even on the morning emergency supply) and - of course - we can support and guide you in the process of making the best decision about the employment of staff.
